

Barcode Generator User Manual

* The barcode generator may take up to a minute to load.

Double click on Barcode-Generator to run the program.
The generated files can be safely deleted, **except for conf**.

The user interface is explained below:

A .png file will be created for each page generated. Each file will have the title: [Herbarium code][starting numeric code]-[ending numeric code].png. For instance, if the user interface example is run, the following files will be created:

	ABCDEF000001-000052 barcodes.png	6/27/2019 1:06 AM	PNG File	125 KB
	ABCDEF000053-000104 barcodes.png	6/27/2019 1:07 AM	PNG File	126 KB
	ABCDEF000105-000156 barcodes.png	6/27/2019 1:07 AM	PNG File	125 KB
	ABCDEF000157-000208 barcodes.png	6/27/2019 1:07 AM	PNG File	126 KB
	ABCDEF000209-000260 barcodes.png	6/27/2019 1:07 AM	PNG File	126 KB

The files are located in the same folder as Barcode-Generator.exe, print from a laser printer.
